Dear Friend,

The influx of "illegal aliens" into the city of Santa Ana is a growing problem that needs to be addressed in a complete and sound manner.

As a naturalized United States citizen, I have strong feelings about halting the illegal migration of any ethnic group into our community. My brothers, sister and father all became United States citizens by following the law.

Even though America is the land of opportunity and home of the free, it's only law that we respect the rights of native American citizens by not allowing illegal immigrants to freely purge our community.

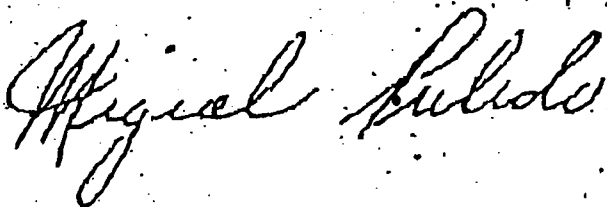

As your Councilman, I will tolerate nothing less than action and concrete results and begin to resolve this pressing problem. Santa Ana citizens should not be forced to rely upon the empty promises that Councilman P. Lee Johnson has made and will continue to make on the problem of illegal aliens. The facts are clear P. Lee Johnson has done nothing and will continue to do nothing as long as he remains on the Santa Ana City Council to cure this epidemic.

Our community can no longer tolerate the public nuisance that illegal aliens bring upon us. Loitering and drug related crimes are linked to our city's illegal alien problem and our community spirit is forever tainted by the presence of this issue.

As a hispanic, I am outraged at the negative perceptions illegal migration casts upon "all" hispanics. Let me set the record straight, Miguel Pulido is one hispanic who loves America, respects the law and opposes illegal migration into the United States.

I hope you will join me in combating this problem. We have had enough lip-service on this matter and many others. NOW! It's time for some good old-fashion action. If you believe in action and hard work, vote for Miguel Pulido for Santa Ana City Council, Ward #4.

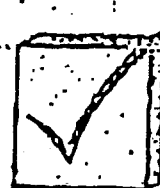

Kindest Regards,

Miguel Pulido

P.S. Throughout this campaign I plan to be upfront and precise on where I stand on the important issues that face Santa Ana. Please reject last minute desperate attacks by my opponent that are designed to mislead you and distort the truth. Thank you.
